

The Narragansett Electric Company
d/b/a National Grid
Reference Copy of Summary of 2020 SRP Report Commitments

Please note that the text below in this document is a direct copy of that found in the 2020 SRP Report. This is for ease of reference for the EERMC meeting on April 30, 2020.

<<

The commitments that do not require SRP funding, but which are included in the 2020 SRP Report, are summarized in the following table.

Table 1: Summary of 2020 SRP Report Commitments

SRP Section	SRP Commitment
1	The Company commits to performing background research on NPAs and exploring how NPAs align with Company policy and the Least Cost Procurement Standards (LCP Standards) for the next update in the Three-Year Plan review. The Company commits to engaging with stakeholders to discuss and understand opportunities and challenges regarding NPAs.
8	The Company plans to continue analyzing its current NWA screening and development processes to determine how NWAs might be best considered as both complete and partial solutions.
8.1	As part of the Company’s reevaluation process, it was determined that the Company should pursue third-party solutions for these previously identified NWA opportunities from the East Bay Study. The Company will commit to developing an NWA RFP for the East Bay opportunity.
9.5	The Company commits to the following actions with the intent of increasing the viability of the South County East NWA Projects: <ol style="list-style-type: none"> 1. Analyze whether there are additional benefit streams available that can be combined with NWAs to create more cost-effective solutions. 2. Refine the parameters of the need to capture additional benefits, if applicable. 3. Assess the option of a Company-sourced proposal, where the Company formulates a proposal with specific parameters to be fulfilled by the market, which would be used to compare against third party solutions.
9.5	The Company commits to investigating viable alternate solution pathways for the Narragansett 42F1 and South Kingstown NWA opportunities.
10.2	Begin coordination work with the Company’s proposed Grid Modernization Plan regarding inclusion of hourly (8,760 hours) data in addition to peak load data once the Grid Modernization Plan with this update is approved for funding.

SRP Section	SRP Commitment
12	The Company recognizes that improved synchronization between SRP and Power Sector Transformation (PST), the Energy Efficiency Program Plan (EE Plan), the Infrastructure, Safety and Reliability Plan, the Grid Modernization Plan (GMP), and the Advanced Metering Functionality (AMF) Business Case is necessary and intends to improve coordination between these filings.
12	Therefore, the Company commits to continued stakeholder engagement and continued participation in enhanced discussions regarding SRP, NWA, and related policy and programs with stakeholders.
12	The Company also commits to continue its efforts to actively avoid double-counting shareholder incentives in SRP programs and projects.
12.1	The Company intends to implement robust stakeholder engagement and discussion on the electric forecasting process.
12.1	The Company will commit to development and implementation of a data governance plan in coordination with the work on the AMF and GMP filings and will continue stakeholder engagement and discussion.
12.1	The Company commits to stakeholder engagement and discussion regarding locational incentives through in Rhode Island by July 31, 2020 through the SRP TWG meetings and other relevant sessions, and to determine whether the current methodology should be modified.
