# Rhode Island Annual Energy Efficiency Planning Improvement Process

**Presented By:** Mark Kravatz, Optimal Energy, Inc.

**Date:** November 15, 2018

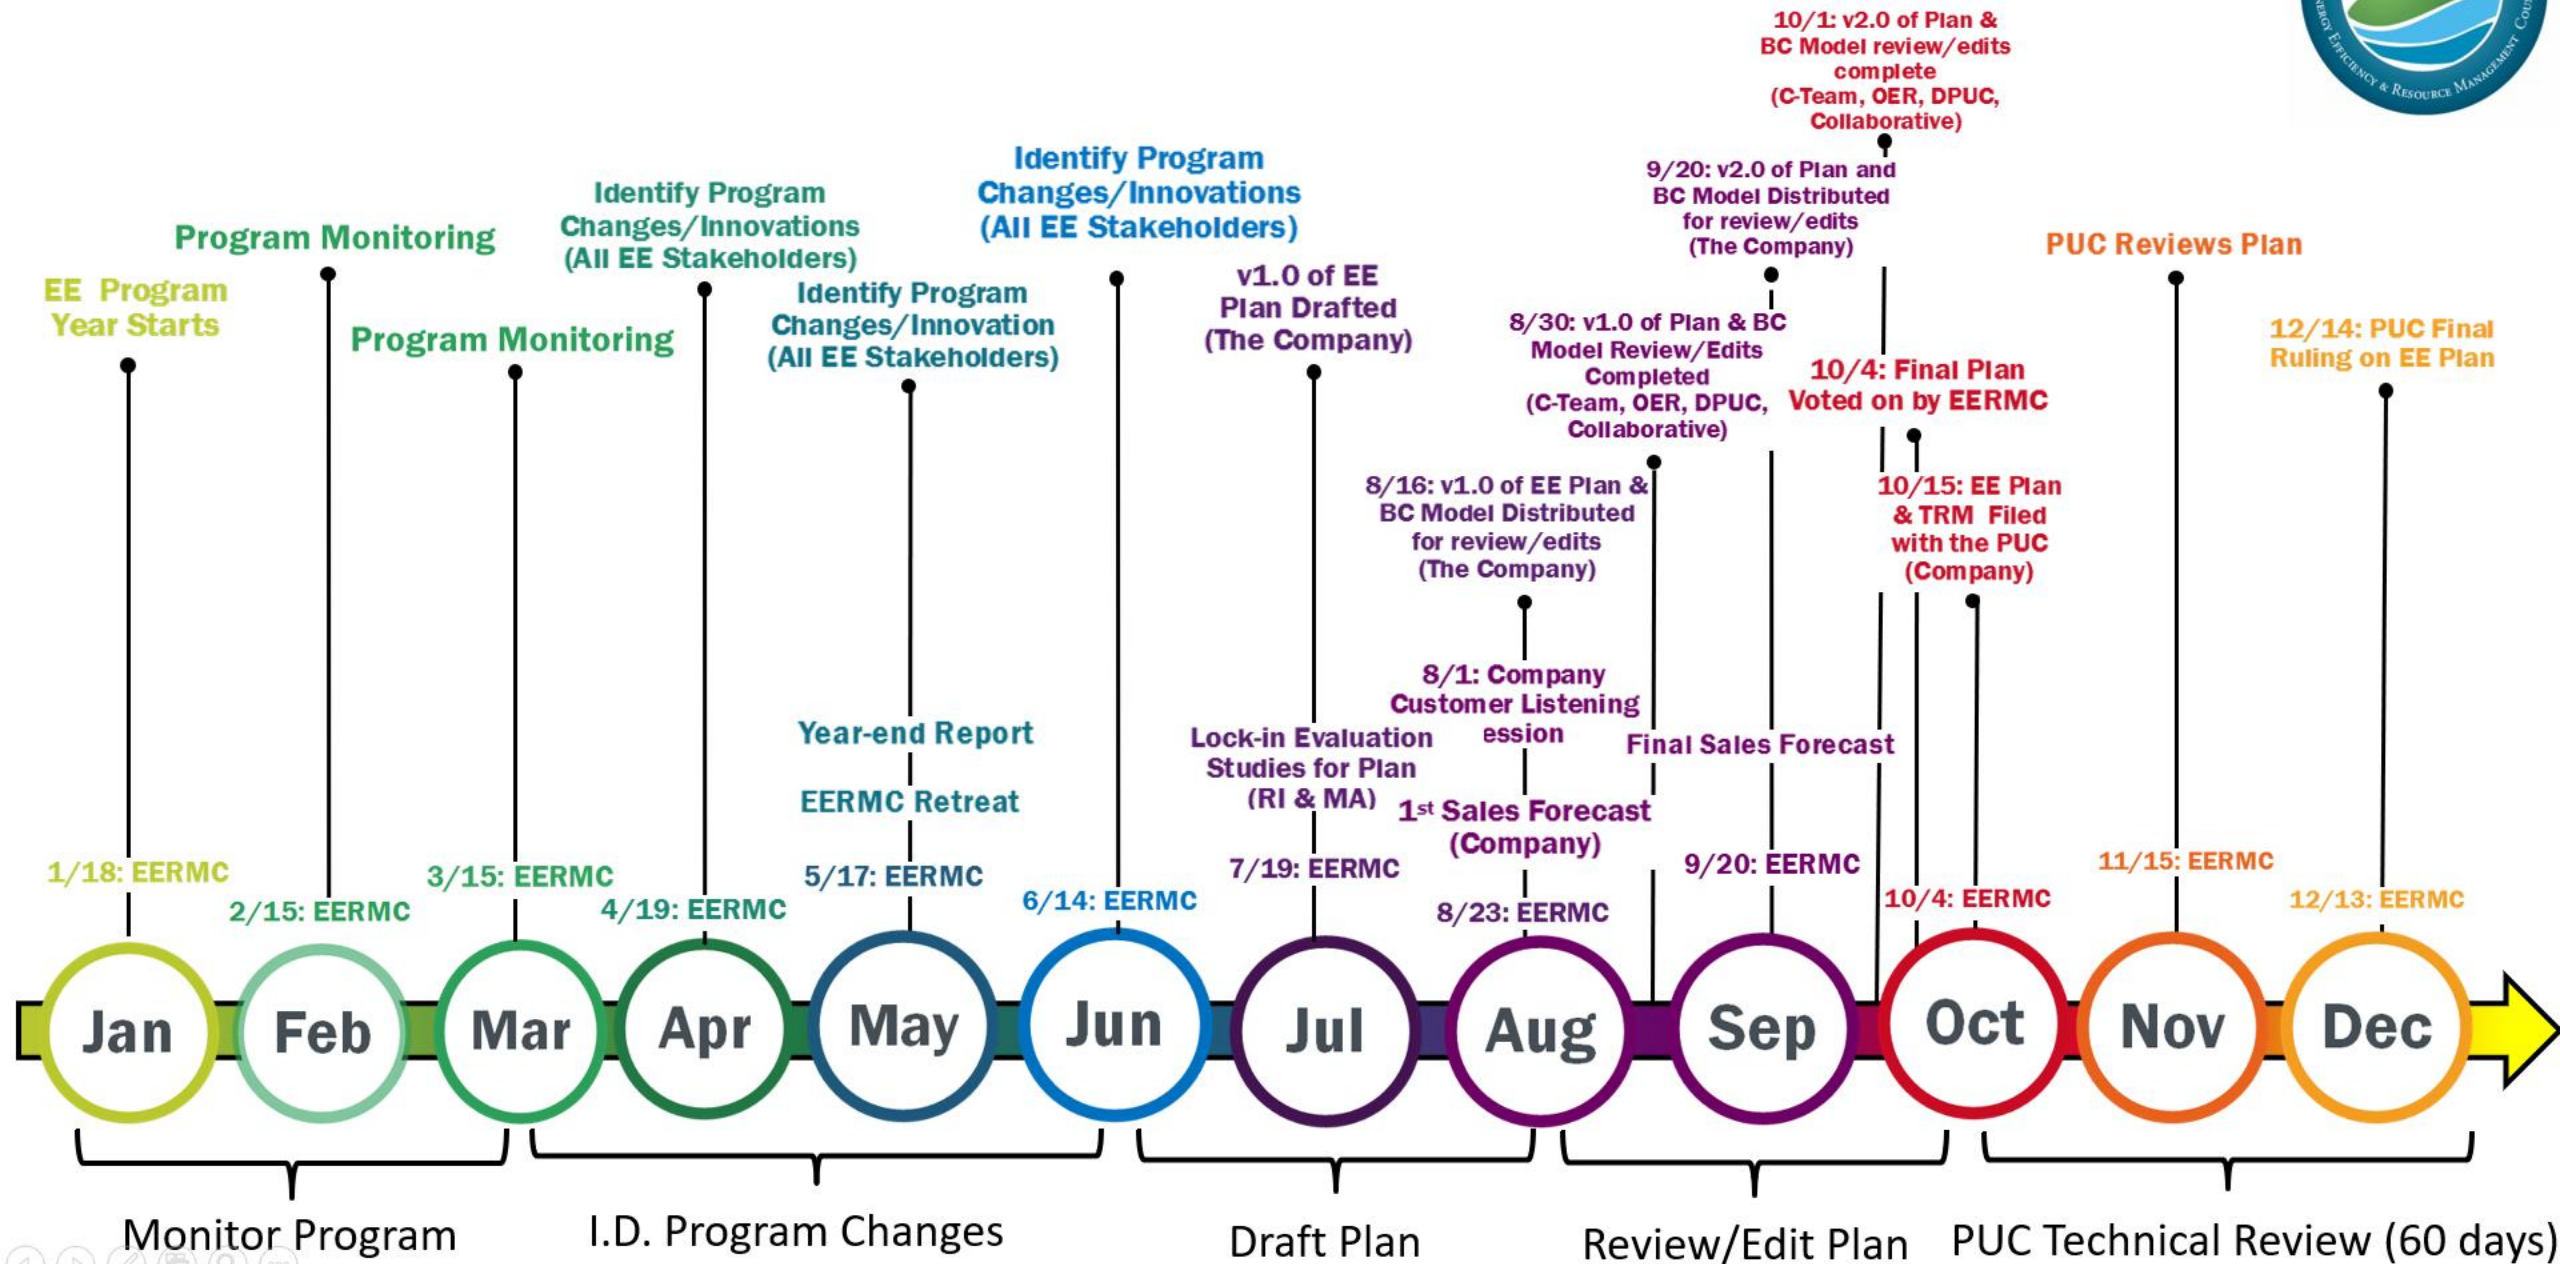

# Annual EE Planning

---

- Challenges:
  - Annual Plan editing/review timeline is too compressed
  - No formal structure for EERMC and stakeholder priorities input
- Objectives:
  - More clarification on defining key issues, and process for settling
  - More time for review and feedback
  - Increase timeframe for analysis, fact-checking
- Opportunity:
  - Adjust and enhance the process before cycle starts again
